LIST OF SPEAKERS

Keynote Speaker:
Prof Tasuku HONJO,
Kyoto University Graduate School of Medicine, Japan

Australia
- Gabrielle BELZ, Walter and Eliza Hall Institute of Medical Research
- William (Bill) HEATH, University of Melbourne
- James McCLUREY, University of Melbourne
- Carla VINUESA, Australian National University

France
- Bernard MALIUSSEN, Centre d’ImmunoBiologie de Marseille-Luminy

Germany
- Stefan KAUFMANN, Max Planck Institute for Infection Biology

Hong Kong
- Louis SU, The University of Hong Kong, China

India
- Shubhada CHIPLUNKAR, Advanced Centre for Treatment Research and Education in Cancer
- Gautamendra SA, Box Institute

Italy
- Paola CASTAGNOLI, Perugia

Japan
- Konosuke KOYASU, RIKEN
- Satoru HONJO, Kyoto University Graduate School of Medicine
- Kengo KABASHIMA, Kyoto University Graduate School of Medicine
- Shigeno KIYOSHI, RIKEN
- Noriko TSUJI, National Institute of Advanced Industrial Science and Technology

Republic of Korea
- Charles D SUD, POSTECH
- Min-Kyu KWEDON, Asan Medical Center
- Eui-Cheol SHIN, KAIST, Graduate School of Medical Science and Engineering

People’s Republic of China
- Xuejia CAO, Chinese Academy of Medical Sciences
- Bing SHI, Shanghai Institute of Immunology
- Shengping TANG, University of Science and Technology
- Li WU, Tianjin University School of Medicine of China
- Shuangtong HONG, Chinese Academy of Medical Sciences
- Xiangqian WANG, Nanjing Medical University

Singapore
- Salvation ALBANI, KK/H-Duke-NUS
- Veronique ANGELIS, National University of Singapore
- Danis CAMPANA, National University of Singapore
- German DE LIBERO, Singapore Immunology Network
- Nicole GASSCOIGNE, National University of Singapore
- Flavien GHINHOUX, Singapore Immunology Network
- Maria LAFAILLE, Singapore Immunology Network
- Paul MACARY, National University of Singapore
- Evan NEYDEL, Singapore Immunology Network
- Lisa NGO, Singapore Immunology Network
- Christine RUEDL, Nanyang Technological University
- Ashley ST. JOHN, Duke-NUS
- Iouen SU, Nanyang Technological University
- Suy-Chung WONG, Singapore Immunology Network

Taiwan
- Shie-Liang HSIEH, Academia Sinica
- United Kingdom
- Kostas RIZOS, aSQUAr, London Research Institute

United States of America
- Diane MATTHEW, Harvard Medical School

**Pre-Conference Flow Cytometry Workshop 29-30 June 2015**
Venue: Aspiration Theatrette, Level 2M, Matrix @ Biopolis
Register Online by 30 June 2015
Venue: To be advised

**Hands-on Session 30 June 2015**
Venue: To be advised

**4 Days Scientific Conference 30 June – 3 July 2015**
Venue: IMB Institute @ Biopolis

INDUSTRY PARTNERSHIPS

- **Sponsor and Exhibitor Profiles include:**
  - Antibodies / Reagents Manufacturers
  - Biopharmaceuticals Companies / Contract Research Organization (CRO)
  - Biotechnology Companies
  - Chemical Companies
  - Clinical Diagnostic Companies
  - Microbiology Research Equipment Providers
  - Microscopy & Imaging Companies
  - Nutritional Supplements
  - Pharmaceutical Companies
  - Protein Purification Companies

- **Visit FIMSA 2015 Website for more information on exhibitors**
Join us in 2015, for an enlightening, informative and enriching experience!

Congress to this end.

advances in the region. We expect to attract a large number of regional and international scientists and we have designed the Pacific region Immunology societies that are engaged in basic and clinical immunology, and that this will facilitate scientific representatives from the disciplines of Immunology.

The Singaporean Society for Immunology (SgSI), established in 2007, aims to foster and promote Immunology research and practice.

The Singaporean Society for Immunology (SgSI) has the honour of hosting the 6th Congress of The Federation of Immunology Societies in Asia (FIMS) 2015. This congress will be held from 30th June – 3rd July 2015, at Sands Expo and Convention Centre, Singapore.

FIMS 2015 is not only a wonderful meeting point for Asia-Pacific region Immunology societies, but it will also allow all biomedical and clinical scientists to exchange ideas and share experiences in immunology-related research and clinical practice.

Representing the breadth of immunology research, the conference will comprise an array of important up-to-date topics of great interest. All immunology-related societies will be represented in the conference, in particular the large Pacific region Immunology societies.

The event programme will cover the breadth of immunology research, comprising an array of important up-to-date topics of great interest. We expect to attract a large number of regional and international scientists and we have designed the conference programme to facilitate scientific exchange and the presentation of recent advances in the field.
